

Course Description Form

1. Course Name: Medical Terminology					
2. Course Code: TER110					
3. Semester / Year: second 2024/2025					
4. Description Preparation Date:2025					
5. Available Attendance Forms: Live attendance in the classroom					
6. Number of Credit Hours (Total) / Number of Units (Total)					
2 hours					
7. Course administrator's name (mention all, if more than one name)					
Name: A.L.Eirteham Saeed Raheem					
Email: m03163094@s.uokerbala.edu.iq					
8. Course Objectives					
Course Objectives		1–Understand the basics of medical terminology (roots, prefixes, suffixes) 2–Learn key terminology related to the human body s systems 3–Apply medical terms in the context of cosmetic and la technology			
9. Teaching and Learning Strategies					
Strategy		Interactive lectures Case-Based Learning			
10. Course Structure					
Week	Hours	Required Learning Outcomes	Unit or subject name	Learning method	Evaluation method

first	2	Knowledge	Introduction to Medical Terminology Definition and importance of medical terminology Components of medical terms (root, prefix, suffix) Practical examples	Giving a lecture using modern presentation methods	Oral test
second	2	Knowledge	Anatomical Directions and Planes Anatomical directions (anterior, posterior, superior, inferior) Anatomical planes (sagittal, coronal, transvers)	Giving a lecture using modern presentation methods	Oral test
third	2	Knowledge	Terminology of Skin and Dermatology Main layers of the skin (epidermis, dermis, hypodermis) Common terms: (derm, cutane)	Giving a lecture using modern presentation methods	Oral test
fourth	2	Knowledge	Terminology of the Muscular System Types and functions of muscles Key terms: (myo-, fascio-, tono)	Giving a lecture using modern presentation methods	Oral test
fifth	2	Knowledge	Terminology of the Skeletal System Main components of the skeletal system Key terms: (osteo-, arthro)	Giving a lecture using modern presentation methods	Oral test
sixth	2	Knowledge	Nervous System Terminology Major parts and functions of the nervous system Key terms: (neuro-, cerebro-, encephalo)	Giving a lecture using modern presentation methods	Oral test
seventh	2	Knowledge	Cardiovascular System Terminology Heart and blood vessels overview Key terms: (cardio-, angio-, veno-)	Giving a lecture using modern presentation methods	Oral test
eighth	2	Knowledge	Respiratory System Terminology Key organs of the respiratory system Common terms: (pulmo-, broncho-, tracheo-)	Giving a lecture using modern presentation methods	Oral test

ninth	2	Knowledge	Digestive System Terminology Major organs of the digestive system Key terms: (gastro-, entero-, hepat-)	Giving a lecture using modern presentation methods	Oral test
tenth	2	Knowledge	Urinary System Terminology Main organs and functions of the urinary system) Key terms: (nephro-, cysto-, uro-)	Giving a lecture using modern presentation methods	Oral test
eleventh	2	Knowledge	Reproductive System Terminology Male and female reproductive systems) Common terms: (gyneco-, andro-, utero -)	Giving a lecture using modern presentation methods	Oral test
twelfth	2	Knowledge	Lymphatic and Immune Systems Terminology Functions of the lymphatic system and immunity Key terms: (lymph-, immun-)	Giving a lecture using modern presentation methods	Oral test
thirteenth	2	Knowledge	Dermatology and Cosmetic Terminology Terminology related to cosmetic and skincare applications Examples of laser-related terms	Giving a lecture using modern presentation methods	Oral test
fourteenth	2	Knowledge	Nervous system and special senses	Giving a lecture using modern presentation methods	Oral test
fifteenth	2	Knowledge	Medical record activity and write a diagnostic report	Giving a lecture using modern presentation methods	Oral test

exam

11. Course Evaluation

Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reports etc

12. Learning and Teaching Resources

Required textbooks (curricular books, if any)	Fundamental of nursing
Main references (sources)	Curriculum set by sector committees
Recommended books and references (scientific journals, reports...)	http://www.studentconsult.com/
